

Scrum Diario

- El equipo de desarrollo
- El Scrum Master (no es obligatorio)
- A la misma hora todos los días, es definida por el equipo
- Duración: Máximo 15 minutos

Cada miembro del equipo responde lo siguiente:

- ¿Qué hice ayer?
- ¿Qué haré hoy?
- ¿Veo algún impedimento?

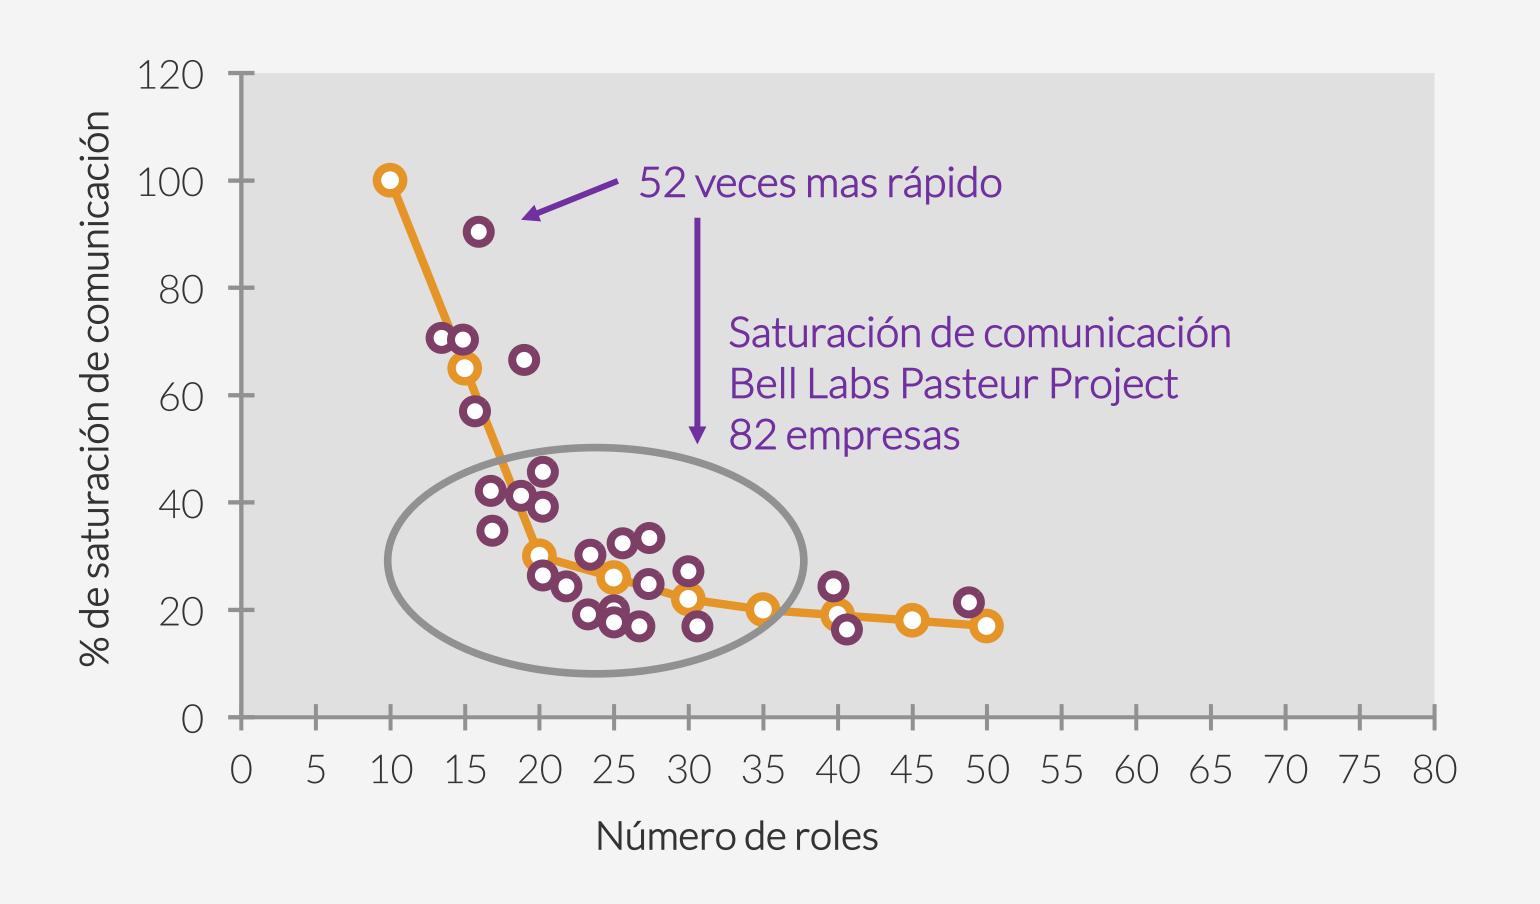

- Un entendimiento común del trabajo más importante para avanzar hacia la meta.
- Un Backlog actualizado de los impedimentos.

James Coplien – Saturación de comunicación

títulos.

ONE AIRLINE, ONE BRAND IN THE BEGINNING: BRIDGING THE NEXT STEP Delta received final government approval to operate In the months around October About five months after the as a single airline in January 2010. At that point, 2008, when the merger was merger, the two airlines began closed, there was a flurry of "cross-fleeting," when critical all the computer systems could be switched to unified platforms. Many, like reservations and "bridging" projects: opening up systems like reservations had **AIRPORTS AND GATES** seat availability and pricing, had to be access between the airlines' to start talking to each other. Orange notes But they remain separate switched over at the same time. computer systems so each could indicate changes in see what the other was doing. A operations. customer service at priority was to quickly show 2010 كلي airport counters and customers the benefits of the kiosks. merger. 2009 -**ALLIANCE PARTNERS** Oct. 2008 Bright green notes were for updates in coordinating with the airlines' partners, like Air France-KLM. **LOYALTY PROGRAMS** Light blue notes show steps in integrating customer loyalty programs. **AIRPORT OPERATIONS** Pink notes represent airlines' interaction with the airports coordinating gates, flights and communications with the control tower. AIRCRAFT CONTROL Light purple notes were for changes in the systems that A photograph of the master guide, keep track of where taken by Delta Air Lines, in its headquarters flights are, rerouting in Atlanta in September 2008. and cancellations.
